Course webpage:	http://www.business.uzh.ch/de/professorships/emap/teaching.html

Course overview

Personnel Economics differs from conventional Labor Economics in that it focuses on what happens *inside* firms and organizations. It deals with employment contracts, wage structures, employer-employee interactions and other issues related to the workplace. A central area of research is concerned with how to structure jobs and incentives inside firms to achieve desirable outcomes for employers as well as employees. This course will present and discuss some of the key topics in Personnel Economics research and the latest developments therein. In addition, the course will also cover selected topics in Labor Economics related to the Personnel Economics literature.

Target audience and preconditions for participation

The course is particularly designed for doctoral students in economics of education. Doctoral students in economics or business economics with a strong interest in personnel and labor economics for education economists are welcome as well.

Credit requirements and grading

Full course attendance is required to receive ECTS-Points. Students are expected to come prepared to the course. It will facilitate discussions and improve overall learning.

1. Presentation in class.
2. Individual take-home exam.

Application

The number of participants is limited. Course registration until **March 31, 2026**, is mandatory. Please send your application (including a one- page CV) to laura.brunner@business.uzh.ch.

WWF Statutory Course Policies

According to WWF study regulations, all exam dates are final as published in the VVZ and syllabus. This means that the final exam date is not negotiable. It will not be possible to take any exams on different dates.

Academic dishonesty in any form will not be tolerated. Anyone caught cheating or engaging in unethical behavior will be reported to the Dean's office according to the guidelines on academic dishonesty set forth by the University of Zurich.

The information in this syllabus supports the official information in the electronic university registration tool (VVZ-Vorlesungsverzeichnis). In cases of doubt, the official information at the VVZ is decisive.

For UZH students: Don't forget to officially register using the registration tool of the University of Zurich.

Any work presented by students only uses aids that are declared. Students accept full liability for the scientific integrity irrespective of potential use of generative AI tools such as ChatGPT. All instances of direct quotes or paraphrasing from published or unpublished sources are properly attributed. All work, in its current form or any similar version, has not been previously submitted, in whole or in part, as part of any other examination.
